41. Video tape No. 1.29 Title: SLUPCANE – K. DOKTORI - Preparation with boiler

Contents of the video tape:

1. NLA fighters constructing bombs

Time	Contents of pictures and remarks
0:00:00	<p>Date 17May01</p> <p>A group of NLA fighters is sitting in a drawing room (among them „GURI’s“ unit leader „XHEFAT“); one of them fills fertilizer into a container (gas boiler) saying that in the KOSOVO this is used to have larger corn in order to expel the Slavs. Subsequently, parts of sewn metal wires (as used for house construction) are filled into the container. Inarticulate conversation in SLUPCANE: „...they have started to clean SLUPCANE.“</p> <p>Then they are talking of the bottle of brandy as a reward for the horse that will carry the bomb. Inventor of this type of bomb, successfully used as antitank mine at the DULJE pass, is Ismet JASHARI.</p> <p>Subsequently, the constructor of the bomb says: „Do not hand this cassette over to KFOR for otherwise they would arrest me since the construction of atomic bombs is forbidden and the effect of this fertilizer is like that of an atomic bomb.“ One of the men is sent for a gasoline flask; in the background, the talk is on dum dum bullets.</p>
0:08:30	<p>Three other NLA fighters enter the room and are welcome.</p> <p>Several 200 gr of TNT charges are already placed in the container.</p> <p>In the course of the bomb construction, loud hubbub (without meaning) takes place.</p> <p>More NLA fighters arrive bringing warheads of grenades that are also placed in the container. Subsequently, washing agent is added. Then, the initiation kit is mounted and inserted.</p> <p>It is mentioned that this is a 10 kg bomb and the bomb constructed the day before is a 20 kg bomb.</p>
0:25:40	<p>One fighter squats beside the two bombs, points to the bottom of the bomb and mentions SLUPCANE. Some of the fighters are leaving the room, music is turned on.</p>
0:31:33	<p>The bomb constructor is Xhevat BUJARI with the fighter’s name „DOKTOR“.</p> <p>It is mentioned that this type of bomb was also used in BOSNIA. There, they found an unexploded bomb that was taken as a sample.</p> <p>The unit leader „XHEFAT“ and other fighters are returning. The bomb is closed with constructional foam.</p>
0:34:20	<p>The fighter sitting beside „XHEFAT“ says that tomorrow he will conduct some actions again.</p>
0:39:40	<p>The bomb constructed the day before is named SLUPCANE, the new one DOKTOR.</p>
0:46:40	<p>The bomb is carried outside, loaded onto a cart, and a bottle of alcohol is given to a horse.</p>
0:47:40	<p>The bomb is carried outside, loaded onto a cart, and a bottle of alcohol is given to a horse.</p>
0:53:13	<p>Lined-up NLA fighters (approx. 30) on green meadow, Xhevat BUJARI arrives and receives the report of the lined-up unit.</p>
1:02:35	<p>Date 04June01.</p> <p>Xhevat BUJARI, together with several NLA fighters (i.a. the Commander of a RECCE unit from the battle position trench), is again constructing bombs in another drawing room (two bombs; this time, the cover is additionally</p>

1:06:30	screwed onto the bomb). Aircraft noise in the background (SKOPJE?).
1:28:45	An SA-7 is hanging from one wall. More men enter the room. Then, again a bottle of alcohol is given to a horse; some of the fighters have blackened faces.

Some of the fighters who had already fought at „GURI’s“ side during the Kosovo crisis are also found among his men in the Macedonian crisis. The video material evidences that Xhevat BUJARI „DOKTOR“ and Mufaili RRETHE occupy leading positions in the Long-Range RECCE Battalion for specific operations led by „GURI“. Xhevat BUJARI is highly involved in the construction of several bombs that, inter alia, could have been used for terrorist purposes.
